

2<sup>nd</sup> October 2007

To Whom It May Concern,

It is with great pleasure that I announce an exciting new future for Vulcanite Pty Ltd. Chess Engineering Pty Ltd (Padstow-Sydney) & Vulcanite Pty Ltd have joined forces to create a critical mass not seen before in this product range. The ink was dry on this momentous occasion close of business Friday 28th of September.

Vulcanite are well known globally as the quality supplier of railway resilient suspension components & Chess engineering also have enormous experience in railway products such as Tangara gangway & door assembly re-furbishment plus general rail facility requirements. Chess are an efficient versatile multi skilled, can do Engineering workshop with more than 40 years in business.

This new chapter will only help to enhance our ability to serve you better and offer a wider range of products and services.

Please come and visit both of us on stand number 23 at Ausrail Exhibition 2007 Sydney Convention Center 4th to 6th December or log onto our website [www.chessindustries.com.au](http://www.chessindustries.com.au) or [www.vulcanite.com.au](http://www.vulcanite.com.au)

Yours sincerely,

Matthew Park  
General Manager  
Vulcanite Pty Ltd
